

Rules for Submission to Journal of Japan Society of Energy and Resources

*Except for manuscripts directly solicited by the editorial committee

1. Qualification for Contribution

The main author of all submitted manuscripts should be a member (regular member, special member, or student member) of Japan Society of Energy and Resources (JSER), and be the first author.

2. Submitted Manuscript

- (1) Submitted manuscripts should be useful for the mutual enlightenment of members and for industrial and educational development of Japan as well, through sharing academic or technological knowledge and experience.
- (2) The contents should be related to the field of energy, resources, environment, and associated fields.
- (3) Manuscripts should follow the rules of submission and the guidelines for authors, which are available from the homepage of JSER. Manuscripts which do not follow these guidelines may not be accepted.
- (4) Manuscripts should be submitted to the secretary office of JSER (toko@jser.gr.jp) by e-mail as an attached file in principle. Postal submission is also available.
- (5) Authors should also complete the designated "Author Information Card" and attach or enclose it when submitting manuscripts.
- (6) Authors should submit the copyright transfer statement which will be provided from the secretary office after the submission of the final version of the manuscript.

3. Category

Article categories are shown below. Only categories marked with an asterisk (*) are open for general submissions. For research papers and technical papers, an one-page abstract of the paper has been published in the print version of the magazine and the full paper has been published on the J-STAGE, an electronic journal platform for science and technology information in Japan, developed and managed by the Japan Science and Technology Agency (JST).

Category	Contents	Number of standard pages
Opinion(*)	Proposals, opinions, criticisms, and comments on current events	2
Prospects, review(*)	Current prospects and future outlook, comprehensive explanation or review of research and technology	5
Special issue (single issue)	Directly invited papers related to a specific special issue topic	5
Special issue (series)	Directly invited papers related to the annual special issue series	5
Research paper(*)	Original research papers in fields relevant to JSER. Full papers published in the electronic journal with one-page abstracts in the print version.	5-10
Technical paper(*)	Papers focused mainly on experimental results, technological developments and analysis. Papers should not be purely promotional. Full papers published in the electronic journal with one-page abstracts in the print version.	5
Promenade of historical events	Reflection on historical events or people who have influenced modern society (relating to topics of interest to JSER)	up to 4
Report on international conference	Reports on international conferences, reports on visits to domestic and foreign research laboratories, etc.	3
Reports of JSER Activity	Reports on activities of JSER	3
Book review	Reviews of relevant recently-published books	0.5
Introduction of group	Introduction of groups of companies, research laboratories, universities, etc.	1
Technical and administrative information	Brief explanations of valuable technical and administrative information	1
Saloon	Information exchange between members, free commentary from members, or essays	1

4. Publication fee

- (1) The publication fee for research papers and technical papers is charged as shown in subsidiary rule 1. An additional fee for paper offprints is charged if requested by the author.
- (2) The publication fee for all manuscripts except for research papers and technical papers is charged as shown in subsidiary rule 2. The authors will receive a PDF file of the printed manuscript. An additional fee for paper offprints is charged if requested by the author.

5. Treatment of receipt and acceptance of manuscripts

- (1) The date of receipt is the day that the manuscript arrives at the secretariat office and will be notified to the main author. Except for research papers and technical papers, manuscripts whose pages exceed the number of standard pages considerably may not be accepted for review.
- (2) The acceptance of received manuscripts will be reviewed and judged by the editorial committee (6 times a year, during even-numbered months) and the results will be notified to the main author. The date of acceptance is taken as the day when the committee meeting is held. Category changes for papers may be requested. All contributed articles will be judged at the peer-review committee before being put to the editorial committee for acceptance.
- (3) The manuscripts will be recognized to be refused if the author does not respond to the inquiries of the editorial committee within the appointed period (3 months).
- (4) The receipt may be treated as “re-receipt” by the judgement of the editorial committee if the contents of the manuscripts are revised considerably.

6. Proofreading

The pre-print proofs will be sent to the author for proofreading. The author will have one opportunity to request edits to the proof, after which changes to the contents are not permitted. Re-assessment will be performed by the editorial committee if the contents are changed.

7. Copyright

The copyright of all contents published in Journal of Japan Society of Energy and Resources shall belong to Japan Society of Energy and Resources. Therefore, anyone who wants to reprint any contents from the Journal must ask for approval from the Japan Society of Energy and Resources. Copying in any form without notice is prohibited.

(Subsidiary rule 1)

The publication fee for research papers and technical papers is 6,000 yen per page.

(Subsidiary rule 2)

The publication fee for all other paper categories is 6,000 yen per printed page within the number of standard pages and 10,000 yen per printed page beyond that limit.

※The amount does not include the consumption tax.
